

FINAL PROJECT

BUILD YOUR STARTUP

From Idea to Pitch

8 Stages	9 Deliverables	1 Final Pitch
--------------------	--------------------------	-------------------------

Name: _____ Group: _____

Date: _____ Program: ADSO / ADSI

HOW THIS PROJECT WORKS

This is your final project for the course. You will build a complete startup plan for a digital product — an app or digital tool that solves a real problem.

Work through the 8 stages in order. Each stage produces one deliverable — a document, poster, slide, or plan. All deliverables together form your final portfolio.

YOU WILL PRACTISE	YOU WILL PRODUCE
- Describing ideas clearly in English - Presenting a product to an audience - Thinking like a startup founder - Writing short, professional texts in English	- An Idea Snapshot - A Customer Profile & Value Poster - A Business Model & Market Research - An Action Plan, Pitch Deck & Risk Analysis

IDEA SNAPSHOT

STAGE 1 Define your startup idea and the problem it solves

Every great startup begins with a clear idea. In this stage, you define what your digital product IS, who it is FOR, and what PROBLEM it solves.

WHAT YOU NEED TO KNOW FIRST

Your product must be a digital tool or app — something people use on a phone, computer, or tablet. It can be completely new or an improvement of something that already exists.

IT CAN BE...	EXAMPLES	NOT THIS...
--------------	----------	-------------

• A mobile app • A web platform • A browser extension • A digital tool / dashboard	• A study planner app • A local food delivery tool • A mental health chatbot • A freelancer marketplace	• A physical product • A restaurant or shop • A service with no tech • Hardware only
---	--	---

Stage 1 Deliverable — Idea Snapshot

DELIVERABLE 1	A short written description of your startup idea
----------------------	--

Complete each section below.

FIELD	YOUR ANSWER
App / Product Name	
Type of product(app / web tool / platform)	
In ONE sentence:What does your product do?	
In ONE sentence:What problem does it solve?	
Who is it for?(one type of person)	
Open source or proprietary?	☐ Open Source ☐ Proprietary ☐ Freemium

Your App / Product Logo or Sketch (draw or attach a digital image here):

[Insert logo or sketch here]

TARGET CUSTOMER PROFILE

STAGE 2 Describe the person who will use your product

You cannot build a great product without knowing WHO will use it. In this stage, you describe your ideal customer — not everyone, just the specific person your app is designed for.

WHAT IS A CUSTOMER PROFILE?

A customer profile (also called a 'user persona') is a short description of your typical user. It includes who they are, what they need, and where they are.

AGE & BACKGROUND	NEED / PROBLEM	WHERE THEY ARE
Who is this person?How old are they?What do they do?	What problem do they have?What do they need?What frustrates them?	Where do they live?What platform do they use?Mobile or desktop?

Stage 2 Deliverable — Customer Profile Card

DELIVERABLE 2

Three bullet points describing your ideal customer

MY IDEAL CUSTOMER

AGE

Age and background:

NEED

Their main need / problem:

WHERE

Where they are / what device they use:

Give your customer a name and a face: Name: _____ (Optional: draw or insert a simple sketch below)

STAGE 3

VALUE PROPOSITION POSTER

Why would customers choose YOUR product?

A value proposition is a single, clear sentence that explains why a customer should choose your product over any other option. It answers the question: 'What makes YOUR product special?'

THE VALUE PROPOSITION FORMULA

For [target customer] who [has this problem], [Product Name] is a [type of product] that [key benefit] — unlike [the alternative], which [limitation].

EXAMPLE: For students who struggle to manage their study time, StudyFlow is a mobile app that creates personalised daily study plans — unlike a paper planner, which requires manual effort every day.

Stage 3 Deliverable — Value Proposition Poster

DELIVERABLE 3

One-sentence value statement + a visual poster (digital or hand-drawn)

Write your value proposition sentence first, then design a poster using Canva, PowerPoint, or paper.

MY VALUE PROPOSITION SENTENCE:

For _____ who _____,

[Product Name] _____ is a _____

that _____

— unlike _____,

which _____.

Poster Design Checklist:

YOUR POSTER MUST INCLUDE	✓ DONE
Product name (large, visible)	☐
Your one-sentence value proposition	☐
A simple visual or icon representing the product	☐
Your target customer (one short phrase)	☐
A tagline or slogan (max 5 words)	☐

 **SIMPLE BUSINESS MODEL**

STAGE 4 How does your startup make money?

A business model explains how your company earns money. Without a business model, you have a great idea but not a business. Choose the models that make sense for your digital product.

COMMON DIGITAL BUSINESS MODELS			
SUBSCRIPTION	FREEMIUM	ADVERTISING	MARKETPLACE FEE
Users pay monthly or yearly to access the product.Ex: Spotify, Netflix	Basic version is free; premium features cost money.Ex: Duolingo, Canva	Free for users; companies pay to show ads.Ex: YouTube, Instagram	Platform connects buyers & sellers; you take a % fee.Ex: Airbnb, Etsy

Stage 4 Deliverable — Business Model

DELIVERABLE 4

List three ways your startup will make money

	REVENUE STREAM	HOW IT WORKS FOR YOUR PRODUCT	WHY THIS MODEL FITS
1	_____	_____	_____
	_____	_____	_____
		_____	_____
2	_____	_____	_____
	_____	_____	_____
		_____	_____
3	_____	_____	_____
	_____	_____	_____
		_____	_____

Estimated price for your main revenue stream:

Our main product / subscription will cost: \$ _____ per ☐ month ☐ year ☐ use

APP PLAN

STAGE 5

Describe your app's purpose and three key features

Now it is time to plan the actual product. In this stage you describe what your app does and identify its three most important features — the things users will come back for.

WHAT IS A FEATURE?

A feature is a specific function or capability of your app. Think of it as something a user can DO inside the product.

GOOD FEATURE DESCRIPTIONS	TOO VAGUE
• Users can track daily water intake and receive reminders • The app sends personalised study schedules every Sunday • Users can filter freelancers by skill, price, and reviews	• It has a calendar • There are notifications • Users can search

Stage 5 Deliverable — App Feature Plan

DELIVERABLE 5

A written plan with your app's purpose and three specific features

APP PURPOSE STATEMENT

[App Name] _____ is a _____ app that helps

[target user] _____ to _____

by providing _____.

	FEATURE NAME	WHAT DOES IT DO? (describe in 2–3 sentences)	WHY IS IT IMPORTANT?
FEAT URE 1			
FEAT URE 2			
FEAT URE 3			

QUICK MARKET RESEARCH

STAGE 6

Interview 10 people about your product idea

Before building a product, smart founders talk to real people. In this stage, you interview 10 people and record what they think about your idea.

INTERVIEW SCRIPT — Use these questions

- Q1** Do you have this problem: [state your problem]?
- Q2** How do you solve this problem right now?
- Q3** Would you use an app to solve this problem? YES / NO
- Q4** How much would you pay for it per month? \$0 / \$2 / \$5 / \$10+
- Q5** What is the most important feature for you?

Stage 6 Deliverable — Research Results Table

DELIVERABLE 6

Results table + 2-sentence summary of what you learned

#	NAME / INITIALS	HAS THE PROBLEM? Y/N	WOULD USE APP? Y/N	PRICE WILLING TO PAY	MOST IMPORTANT FEATURE
---	--------------------	----------------------------	-----------------------	-------------------------	------------------------------

1	_____	☐ Y ☐ N	☐ Y ☐ N	_____	_____
2	_____	☐ Y ☐ N	☐ Y ☐ N	_____	_____
3	_____	☐ Y ☐ N	☐ Y ☐ N	_____	_____
4	_____	☐ Y ☐ N	☐ Y ☐ N	_____	_____
5	_____	☐ Y ☐ N	☐ Y ☐ N	_____	_____
6	_____	☐ Y ☐ N	☐ Y ☐ N	_____	_____
7	_____	☐ Y ☐ N	☐ Y ☐ N	_____	_____
8	_____	☐ Y ☐ N	☐ Y ☐ N	_____	_____
9	_____	☐ Y ☐ N	☐ Y ☐ N	_____	_____
10	_____	☐ Y ☐ N	☐ Y ☐ N	_____	_____

SAID YES TO PROBLEM	WOULD USE APP	AVERAGE PRICE	TOP REQUESTED FEATURE
____ / 10	____ / 10	\$ _____	_____ _____

Research Summary — Write 2 sentences about what your research taught you:

PITCH DECK SLIDE
STAGE 8 Design your single-slide investor pitch

A pitch deck is a short visual presentation for investors or partners. In this stage you design ONE powerful slide that captures your entire startup in seconds.

YOUR PITCH SLIDE MUST HAVE EXACTLY THESE FOUR ELEMENTS

TITLE	Your product name — large, memorable, clear
--------------	---

PROBLEM	One sentence: the problem your product solves
SOLUTION	One sentence: how your product solves it
CALL TO ACTION	What do you want the audience to DO? (Download now / Invest / Sign up)

Stage 8 Deliverable — Pitch Slide

DELIVERABLE 8	One designed slide (Canva / PowerPoint / hand-drawn on A4)
----------------------	--

Write your content here first, then design the slide:

TITLE:	Product name — large and clear
PROBLEM:	In one sentence, what problem exists?
SOLUTION:	In one sentence, how does your product solve it?
CALL TO ACTION:	What do you want people to do?

Slide Design Tools:

Canva www.canva.com	PowerPoint Microsoft Office	Google Slides slides.google.com	Hand-drawn A4 paper + markers
-------------------------------	---------------------------------------	---	---

RISKS & NEXT STEPS

STAGE 9 Identify what could go wrong — and how to prevent it

Every startup faces risks. The best founders do not ignore them — they plan for them. In this stage, you identify two risks and create a specific action to reduce each one.

TYPES OF RISKS FOR A DIGITAL STARTUP			
MARKET RISK	TECHNICAL RISK	FINANCIAL RISK	COMPETITION RISK
People do not want or need your product.	The app has bugs or the technology does not work.	You run out of money before the product launches.	A bigger company builds the same product faster.

Stage 9 Deliverable — Risk Analysis

DELIVERABLE 9	Two risks + one clear next step to reduce each risk
----------------------	---

R1

Risk 1 — Type of risk: ☐ Market ☐ Technical ☐ Financial ☐ Competition

Describe the risk:

How likely is this risk? ☐ Very likely ☐ Possible ☐ Unlikely

Next Step to reduce this risk:

R2

Risk 2 — Type of risk: ☐ Market ☐ Technical ☐ Financial ☐ Competition

Describe the risk:

How likely is this risk? ☐ Very likely ☐ Possible ☐ Unlikely

Next Step to reduce this risk:
